

Environmental Management Policy

SciCorp is committed to environmental sustainability and responsible business practices. As a manufacturer of a biodegradable and non-polluting liquid product used in wastewater treatment, we recognize our role in minimizing environmental impact while supporting our clients in their sustainability efforts.

We adhere to all relevant Ontario government environmental regulations and best practices. Furthermore, we actively comply with initiatives for green building certifications, including BOMA BEST® and LEED®.

Scope

This applies to all aspects of SciCorp's operations, including production, administration, and product life cycle management, as well as interactions with clients, suppliers, and stakeholders.

Objectives

- Minimize environmental impact through sustainable operations.
- Promote water and energy efficiency.
- Ensure responsible waste management and circularity.
- Enhance biodiversity conservation.
- Reduce emissions and combat climate change.
- Foster environmental awareness among employees and stakeholders.
