

# Risk Management Policy

---

SciCorp is committed to proactive risk management to protect its people, assets, reputation, and business operations. This Risk Management establishes a framework for identifying, assessing, and mitigating risks across all aspects of the organization.

## Scope

This applies to all SciCorp operations, including strategic planning, production, client interactions, and supply chain management. It encompasses all employees, contractors, and business partners.

## Objectives

- Identify and assess risks that could impact SciCorp's operations, financial stability, or reputation.
- Implement effective mitigation strategies to manage identified risks.
- Promote a culture of risk awareness and accountability at all organizational levels.
- Enhance decision-making processes through integrated risk management practices.
